

5 GIFTS FOR AN ABUNDANT LIFE

ONLINE

This class promises to change your consciousness, leading to the experience of a more abundant life. If you have struggled with ideas about lack and/or limitation in the world beyond your control, this class will help build a bridge from where you are to an experience of spiritual living in which you feel the infinite support of an abundant universe.

The 5 gifts that lead to clarity and inspiration are: Gratitude, Intentions (both setting and manifesting), Forgiveness (of self and others), Tithing (practice of structured giving), and Surrender. You will savor the spiritual community that you build with your fellow travelers through specific spiritual practices that are designed to guide you in the process of mastering some spiritual principles.
