THE MYSTICAL PATH

IN PERSON

COURSE DESCRIPTION

The Mystical Path offers the student a journey into Oneness. This course provides an opportunity to study the perspective of a mystic to expand our awareness of the Divine Presence in life. Students will identify the common, timeless truths of mystics, and how these truths relate to the principles, practices, and teachings of the Science of Mind. They will explore their own beliefs and experiences with the intention to discover their own mystical perspective. Students will be invited into a greater understanding of the growth of consciousness and learn how the principle of Oneness has a direct impact on the life they live. Lastly, they will present an end-of-course creative project to signify the embodiment of learning that took place during the course.

This is also a Consciousness class
